

Lifenet Gathering Lake Constance

Summer solstice 20.6. – 23.6.2018

Concept

Before you come to the Lifenet Gathering, we invite you to visit the place of your heart, to explore her specific qualities and take them in. **Please bring a gift/symbol of this place to the Gathering.** During the Gathering we will weave together the various qualities of the people, the places of their hearts and Lake Constance. The whole Gathering is dedicated to the collecting and weaving together these qualities on many different levels and forms. With our gifts, we nourish the lake and strengthen her connection to the cosmos. In exchange, you will take home the new qualities that arise from these connections and water from Lake Constance - as a gift for yourself and for the place of your heart.

Programme

Wednesday, 20th June, 2018: Arrival 12:30-13:30, **Start of the Gathering 14:00**, check in between 16:00 – 18:00

Thursday: Journey by train/car to Constance, at 10:15 we'll go by boat to the middle of the lake

Friday: Deepening of our experiences, music and dance in the evening

Saturday: 23rd June: Closure/farewell by noon.

Feel free to arrive earlier individually or stay some additional days at Lake Constance. The very interesting Rhine Falls are also close. Please book your accommodation yourself early.

Your contribution

Your most important contribution is your BEING and bringing along the qualities of the place of your heart. Further contributions are welcome. Do you have a special gift that you want to share? Maybe a meditation, a singing workshop, dance music for Friday evening (we are urgently looking for that!), your skill in translating between German and English (also urgently needed), your organizing ability ...? We look forward to your email to Urs Hunziker hunzikerurs@bluewin.ch, Elsa Fuchs elsa.fuchs.ch@gmail.com, Peter Dickhoefer, peterdickhoefer@googlemail.com

Language

English and German, with translation to and from.

To bring with you

Please bring a gift from the place of your heart and a small vessel for the water from Lake Constance to take home – along with the joy and curiosity to explore something new within you, within your fellows, nature and all her beings. We will spend most of the time outdoors. There is a small beach close to Naturfreundehaus. The temperatures normally are between 15-30°C during daytime (water 20-22°C). At night, the temperature may drop to 10°C. Both sunshine and rain are possible. Please bring appropriate clothing (weatherproof for the boat trip) and swimming suits.
